HORIZON™

HYPERINFLATION

Horizon™ Hyperinflation System

Deliver a high standard of care while effectively managing healthcare costs with the single use Horizon Hyperinflation System. Each system comes standard with an integrated pressure manometer. Optional components and comfort features allow you create a custom resuscitator to meet the needs of each patient and of your facility's budget.

Hyperinflation System

- Systems equipped with a stay-put dial to enable clinician to achieve targeted static pressure
- Three pleated breathing bag sizes available: 1/2, 1 and 2 liter
- Non-inflatable face masks available

Hyperinflation System

Series	Description	PK
1000HZ	Hyperinflation System Standard	10
2000HZ	Hyperinflation System + Manometer + Pop-Off	10
3000HZ	Hyperinflation System + Manometer	10

Integrated Pressure Manometer
helps promote proper pressure delivery

2000HZ Series
shown with integrated pressure manometer and pop-off valve

Patient Port Swivel
allows clinician to easily move around patient while maintaining proper resuscitation

Stay-Put Dial
enables clinician to achieve targeted static pressure

Convenience Components

Face Masks
Non-inflatable, air-filled, soft cushion masks are available in variety of sizes

Safety Components

Integrated Pressure Manometer

The innovative color-coded dial clearly denotes pressure delivery:

- Green Target pressure level <20cmH₂O
- Yellow Potentially dangerous pressure level
- Red Dangerous pressure level

Pop-Off Valves

40cm/H₂O & 25cm/H₂O pop-off provides an extra safety feature to prevent peak inspiratory pressures from reaching excessive levels further protecting the infants fragile lungs
